

Site name: Awareness for sharks

Description: As you may or may not know, humans are responsible for over 100 million shark deaths yearly (according to the international fund for animal welfare), while sharks are only responsible for 12 deaths in 2025 (according to the Florida museum of natural history). The site is dedicated to raising awareness for sharks, the various species of sharks, their hunting patterns, how all marine wildlife is being affected by global warming, and the ways global warming harms sharks.

Page names: Intro page/ general facts, Shark species, Shark behaviors (hunting, migration, etc.) shark poaching, and climate change
